

TECHNICAL DATA WR300 SUN AWNING FABRIC

The WR-300 quality is an extremely robust and waterproof polyester fabric. This cloth has been specially developed for situations where water resistance is an absolute must, for example for large screens, in the catering industry. In addition to a high water column, the fabric is characterized by a high UPF factor.

Item	WR300	Standard
Product	WR300	
Material	100% polyester	
Coating	2-sided acrylic coated	
Finish	Water-, mildew and dirt repellent	
Weight	420 g/m ²	ISO 3801
Width	120 cm	ISO 22198
Colour-weather fastness	7-8	ISO 105 B04
Water column	> 80 cm	ISO 881
Tear strength <i>warp</i>	40 N	ISO 13937-1
Tear strength <i>weft</i>	30 N	
Tensile strength <i>warp</i>	2000 N	ISO 13934-1
Tensile strength <i>weft</i>	1500 N	
UPF (UV protection factor)	+ 50	DIN EN 13758
